

Legal Framework - Life Coaching

As a Life Coach and Spiritual Healer, Gopal Norbert Klein is required, based on a ruling of the Federal Constitutional Court of Germany dated March 2, 2004 (Az. 1 BvR 784/03), to provide the following information before the first session begins:

All offerings by Gopal Norbert Klein in the field of life coaching and spiritual healing serve exclusively to activate the body's self-healing powers and do not replace diagnosis or treatment by a medical doctor, psychotherapist, or alternative health practitioner. These services do not constitute medical practice.

Results are not guaranteed. Ongoing treatments, including the taking of medication, must neither be interrupted nor discontinued, nor should future treatments be postponed or omitted.

In this form of collaboration, Gopal Norbert Klein does not make diagnoses. The focus of his work is the promotion of relaxation and the activation of self-healing powers. He therefore does not work specifically on symptoms or illnesses. Minors under the age of 18 may only use his services with the written consent of a parent or legal guardian.
